	Total Parts and Mods:	\$12,900 value

The airframe is in good shape (although it needs a bath), and easily adds another \$5,000 to the value of this sale. There are also many other parts and pieces included, but not worth listing.

This is a good project, with most of the hard-to-find parts included. It's clear that I'm not going to finish it though, so it's time to find the right person for the job.

It's located at Sutter County Airport (O52), in Yuba City, California.
