

Legacy Sonex Serial 1153. Extremely well built by original builder.  
Completed/Airworthy Dec 2015. Purchased by me at 185 hours. This plane is not a hangar queen - it lives in the tie downs. It is a well worked out and debugged plane which is flown weekly, year round (subject to weather).

Times @ 5th May 2023  
Total Time Airframe - 576.2  
Time Engine - Aerovee 2.1 - 576.2
